HINTS FOR READING DIRECTIONS

- **Asterisks (* and **)** indicate that the directions immediately following are to be repeated a given number of times.
- **Parentheses () and Brackets []** are used in a similar manner as asterisks.
- **"Work even"** means to work without increasing or decreasing, always keeping pattern as established.
- **A choice of sizes** is usually stated at the beginning of the directions. The first number refers to the smallest size. The following numbers refer to larger sizes. However, due to multiple sizes and/or yarn weights, all sizes might be enclosed in parentheses. This will also be explained at the beginning of the directions.
- **Materials** give the following information:
 - a. Recommended weight of yarn, put-up and yardage (i.e., WORSTED WEIGHT YARN/100 g balls/240 yds.)
 - b. Quantity (i.e. 5(6-7) balls/1200(1440-1680) yds./ 500(600-700) grams/18(21-25) ounces)
 - c. Needles, including both standard American and millimeter sizes.
 - d. "OR ANY SIZE NEEDLES THAT WILL GIVE THE SPECIFIED STITCH GAUGE" — needle size may have to be changed after stitch gauge is checked.
 - e. Miscellaneous tools, such as cable stitch needle, circular needle, etc.
 - f. Additional materials, such as buttons, elastic thread, etc.
- **Gauge** specifies stitches and rows measured over 1 or 2 inches.
- **Abbreviations** shown in parentheses are preceded by the explanation the first time they appear.

HOW TO SEW SEAMS

Always have right side of work facing you. With wrong sides touching, pin pieces tog, matching any pattern in rows or sts.

Thread blunt needle with an 18-inch length of yarn and run through BACK of work to beg of seam, leaving an end to be cut later. With right side of work facing you, draw yarn through the st at lower edge of one piece and then through same st of the other piece. **YOU NOW HAVE THE EDGES OF BOTH PIECES JOINED TOG.** Now insert needle under one row at edge of first piece and draw yarn through. Repeat on other piece. Continue in this manner, row by row, until seam is complete.

When sewing seed st, reverse stockinette st and garter st, it is VERY IMPORTANT to take small sts, one loop at a time.

Finish by pulling extra yarn back through seam or along side of seam. **DON'T PULL YOUR SEWING STS TOO TIGHTLY!** Keep them at a firm but light tension to prevent pulling, and to keep sts invisible.

HINTS FOR BETTER KNITTING

STITCH GAUGE

The term "STITCH GAUGE" is the most important part of all knitting directions, since the sizing of any knitted garment is planned on this gauge. You **MUST** work to the gauge which is given or your finished work will not be the size indicated in the directions.

TO CHECK STITCH GAUGE

Cast on approximately 20 sts, using the yarn and needles which will be used for the body of your work. Work in pattern st specified for 3 inches. Bind off all sts. Block this knitted swatch and then, using a ruler as a guide, count the number of sts to 1 inch. If your stitch gauge is **MORE** sts to 1 inch than that given in the directions, try the next size larger needle and again check your gauge. If your st gauge is **LESS** sts to 1 inch than that given in the directions, try the next size smaller needle and again check your gauge. The **IMPORTANT THING** to remember is that the size needle used does not matter as long as your stitch gauge is correct.

RIBBING

On the first row work in the ribbing pattern given. On all other rows, k over the k sts and p over the p sts.

SEED STITCH

On the first row * k 1, p 1, repeat from * to end of row. On all subsequent rows, k over the p st and p over the k st.

TO SLIP A STITCH

Whenever the directions specify a sl st, always insert the right hand needle in the st to be slipped as if to p, unless otherwise indicated.

STOCKINETTE STITCH

K 1 row, p 1 row alternately when working on straight needles. When working round and round on a circular needle or double point needles, knit every round.

GARTER STITCH

Knit every row. It will take 2 rows to make 1 ridge.

MARKERS

When work specifies the use of a marker, use a small round paper clip for this purpose. In working, always slip this marker from one needle to the other.

JOINING YARN

If possible always join a new ball of yarn at the beginning of a row. When it is necessary to join the yarn while working across a row, leave an end about 4 inches long; then work from the new ball of yarn on the next st, also leaving a 4 inch end. After working for 1 inch more, tie these two ends in a square knot, so that the tension will be the same as all other sts. When finishing work, run in these ends on wrong side for 1 inch.
